REACHING TOWARDS HEAVEN FROM THE ASHES OF HIS YOUTH **Drawing Inspiration From a Jaded Past to Share God's Love**

Tampa, FL — Connecticut born, Florida raised up-and-coming Tropical and Contemporary Christian artist “JC Santos” is set to release his debut single, “No One Else but You” on November 6th, 2020. Written and produced by his Producer Lannie Battistini, JC said the song “reached deep within me in that place that I could identify. It opened an earnest appreciation for all that God has done in my life, what He has brought me from, and where I am today and what God is doing and will do in my life!”

Voice may not have been an instrument used in JC's family, but music has always surrounded him. Growing up, he played the trumpet and baritone but voice did not become a big part of his life until late high school. After that he sang wherever and whenever he could; church events, parties, school events, even his brother's wedding. It was a difficult road to where JC is now, he battled issues of bullying, self-image problems, aggression, and hate. However, one day God called out to him and filled him with peace and joy, and showed him his true path. “I saw then that God always had a plan for me but I did not realize it at the time.” His singing grew into much more than a passion, but a drive to share with the world the love that God had shown and shared with him. “I believe my calling is to bring the Truth of the Gospel to everyone. No matter if it's through music, through teaching or both.”

Even during the COVID-19 pandemic in 2020, it has not stopped JC and his drive to release this song, reimagined with a salsa flair, to the world. The song will be released through his Recording Studio's label, Hands In Motion Music based out of Brandon, Florida. It is written and produced by Latin Grammy® Award Winning Producer Lannie Battistini.
